

Precision Cartridge has expanded production to accommodate the increase in demand over the past several months. As a result, we are now able to add on a limited number of new accounts.

If you are interested in becoming a permanent new account, before you contact us, please read and understand the non-negotiable payment policy listed below.

Effective immediately, we have revised our payment policy.

All “commercial accounts”, such as Gun Ranges, Gun Stores, Pawn Shops, Shooting Academies, etc. must prepay for ammunition before it is shipped. The customer will be notified once their order is ready to ship and will have 7 days for payment to be made. Any delay in payment may result in the customer’s order being allocated to another account. Therefore, once contacted, paying as soon as possible will result in expedient shipment of your order.

All Governmental and Law Enforcement accounts will be processed on strict net 30 day terms. Once the ammunition is delivered by either Precision Cartridge, Inc., UPS, or Old Dominion Trucking, full payment will be expected in 30 days. Departments that exceed the 30 day term will result in the account being placed on “prepayment status”.

Thank you for your understanding – we strive to produce the best quality product at a fair price and your assistance in keeping on top of payment will help us continue to be the Midwest leader in remanufactured ammunition.
